Dear Friends;

Thank you for contacting me regarding the U.S. Food and Drug Administration's (FDA) final rule regarding electronic cigarettes (e-cigarettes). Hearing your views helps me better represent Kentucky in the United States Senate.

As you know, e-cigarettes and other electronic smokeless products are battery-powered devices that use a vapor to deliver nicotine to their users. Current FDA regulatory authority applies only to cigarettes, cigarette tobacco, roll-your-own tobacco, and smokeless tobacco. However, beginning on August 8, 2016, the FDA will expand its regulatory authority to include e-cigarettes and premium cigars.

In your correspondence you expressed your thoughts on legislation that would change the grandfather date for products released after the FDA finalizes its regulation in 2016. Specifically, legislation that states that a product released after the 2016 implementation date is subject to pre-market review, but any product on the market prior to the 2016 date would be grandfathered in.

Congressman Tom Cole introduced the FDA Deeming Authority Clarification Act (H.R. 2058) on April 28, 2015. This bill would revise the premarket review and reporting requirements for products deemed to be tobacco products by the FDA, and would clarify that the new requirements would only apply to newly deemed tobacco products. On May 1, 2015, this bill was referred to the House Energy and Commerce Subcommittee on Health for further consideration. Rest assured that I will keep your thoughts in mind as the 114th Congress proceeds.

Again, thank you for contacting me.
